

The Interplay of Line and Grain

Fashion designer and sculptural textile artist **Kelsey Ann Kasom** explores the relationship between the body and its surrounding environments, grounded in an understanding of the material's innate potential. Her design philosophy is shaped by the interplay of **Pleat&Weave™** – an exploration that defines the possibilities within natural materials. Pleat reflects rhythm and repetition, while weave captures structure through the grain, creating a dynamic flow that transforms spaces.

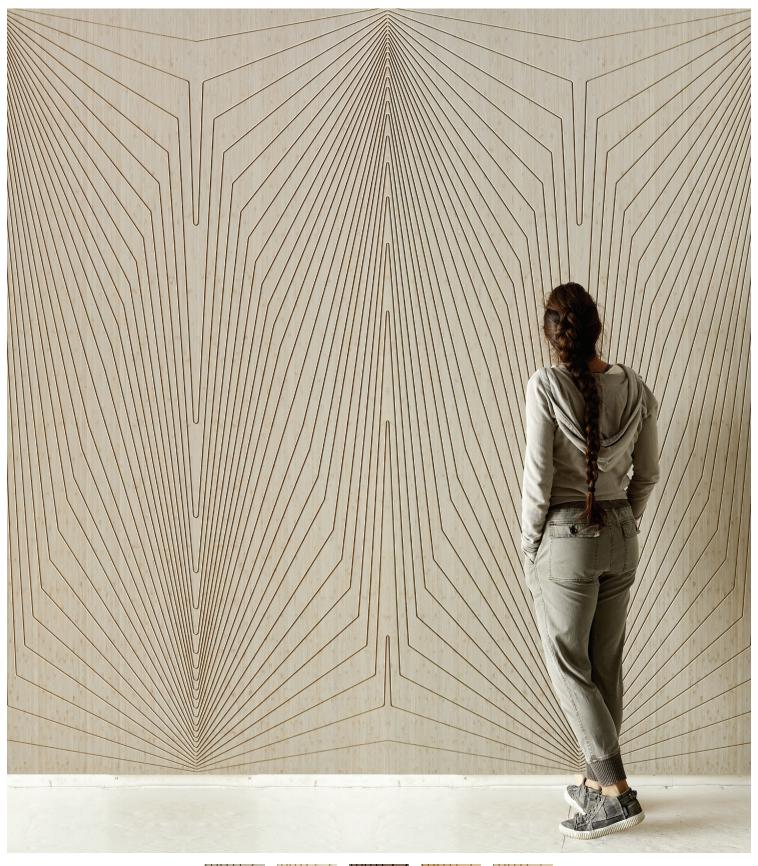

In Kelsey's work with bamboo, the natural grain aligns with the weave of the fabric, both shaped by a shared rhythm of repeating lines. The interaction of shadow and reflective light on **Plyboo's RealCore®** bamboo enhances depth and dimension, much like how light moves across fabric. This connection reveals the truth that when guided by nature, both bamboo and fabric elevate the material by design to its highest potential.

- Kelsey Ann Kasom, Materials Designer for Plyboo by Smith & Fong Company

# PLEAT&WEAVE

The Interplay of Line and Grain

COLLECTION Pleat&Weave™

MATERIAL 100% Bamboo (FSC Certified)

BASE/CORE COMPOSITION Species: Moso bamboo (Phyllostachys Pubescens),

RealCore™ Technology

**ENVIRONMENTAL** LEED Credit Contributing, EPD, HPD, LCA, FSC

**DIMENSIONS** 3/4" x 47 3/4" x 95 3/4" (19mm x 1213mm x 2432mm)

WEIGHT 80-90 lbs

SURFACE TEXTURE Smooth or Carved

**EDGE PROFILE** Straight Edge

**COLLECTION COLORS** Amber, Beige, Crema, Espresso, Fog, French Noir,

Mist, Noir, or custom by design

**EMISSIONS TESTING** Section 01350 Protocol: No VOC's with chronic REL's

(reference exposure level) detected, passes office,

school and residential.

FLAME SPREAD ASTM E84; Class C (Class B available)

PRODUCT DESIGN Pleat&Weave™ Designed by Kelsey Ann Kasom,

Manufactured by Smith & Fong Company
