With this letter we declare that the Shinnoki 4.0 panels, comply with the requirements of TSCA Title VI and CANFER.

Shinnoki 4.0 panels delivered by Decospan are laminate products, made by attaching a wood veneer to a compliant / certified composite wood core (MDF) , as required by TSCA Title VI.

These finished goods are manufactured by attaching a wood veneer to a compliant / certified composite wood core (MDF), with a resin formulated with no added formaldehyde, as required by TSCA Title VI. Therefore they are exempted from the definition of hardwood plywood and the respective emission standard, testing and certification requirements.

Decospan keeps records, demonstrating eligibility for the exemption. Records are kept for a minimum of three years from the production date.

Decospan reserves the right to update and amend the provided information as it deems necessary. This document supersedes all previously provided information.
